

SUPERSITE DIGITAL SPECIFICATIONS

Static Content – JPEG

JPEGs should be saved with maximum quality settings to minimize compression artefacts.
Media files should be sized to screen resolution 1224 pixels (w) x 324 pixels (h).
32:9 Landscape format.
File format is JPEG.
Files need to be saved at 72dpi.

Designing Content

- Be creative with your images.
- Use images of sufficiently high resolution so no up-scaling is required.
- Keep text big as the screens are viewed from a distance, and often at a glance.
- The information should be kept bite-sized and as large as possible.
- Be limited to one sentence of copy.
